ON the AIR with **K8MLH**

The 2011 MCRCA Hamfest is now behind us - a great time again this year. I am looking forward to Fred's, KA8EBI report next Thursday at the meeting on our successes and areas for improvement for the 2012 Hamfest. Now is the time to file away those ideas so we will remember them when it comes time to prepare for next year's event. Thanks, Fred for your leadership in this year's Hamfest.

This past weekend was filled to the brim with activities at the Michigan Summer Family Outing held at the Woodlands Conference Center and Campgrounds in Hale, Michigan. This event was hosted by our ARRL Michigan Section Staff - thanks to all of you for your work at putting this event together. There was a presentation on Foxhunting by Tom Bosscher, K8TB, followed by a short foxhunt so we could practice the skills we had learned. Also were presentations on VOIP Primer and Asterisk Repeaters by Steve Gladden, N8LVB, Standing Up for Standing Waves by Bill Hays AE4QL, Beginners Packet by Jay Nugent, WB8TKL, D-Star by Chuck Scott, N8DNX. Then the ARRL Section Staff (Section Manager, Dale Williams, WA8EFK, Section Emergency Coordinator/Section Traffic Manager, John McDonough, WB8RCR, and Division Director, Jim Weaver, K8JE) updated us on the state of the Section and plans for the future. There were also activities for our wives for their entertainment. Each evening wrapped up by fellowship around the campfire listening to '60s music (the theme of this year's event). Of course there was the requisite excess of food stuffs several times each day. If you have not participated in this event yet, I highly recommend it. LOADS of FUN!!!

As a general interest club, the MCRCA provides information on various aspects of amateur radio to ham operators and to create interest in amateur radio for those who might want to become a ham. To that end it is important that we reach out to our community - those recently licensed hams and those who are candidates for becoming a ham. Read the article (re-run from last month's Herald) inside regarding several opportunities we have for spreading our love for our hobby. Thanks to Rita, WB8FBG for volunteering to be the Scouting Liaison. She has already begun conversation with local Scout leaders for the "Scouting 101 - A New Century". Listen for more details on this event soon to be released. I am still looking for a volunteer for the new member recruitment.

Our Amateur Radio Emergency Services (ARES) group will have their next meeting on Thursday, August 4th at 1900 hours at the American Red Cross. If you are a member of the ARES group or interested in becoming a member, please join us at this meeting to hear of what the group will be doing in the future.

Lastly, our next Foxhunt is scheduled for Saturday, July 23rd. Come out and join us at the American Red Cross on S. Dixie Highway and I-75 at 0900 hours local time. The Hunt will last until all hunters have found the Fox or 3 hours, whichever is shortest. If you don't have the necessary equipment to hunt yourself, come along and we will pair you up with someone who does. It will be a fun time for all and allow us to practice these techniques which have a practical application to our hobby.

We will see you at the meeting Thursday night. 73 Mike Hall - K8MLH, MCRCA 2011 President

MCRCA Minutes:

June, 16 2011

Meeting called to order at 7:30 pm, by Mike K8MLH

Pledge of Allegiance

Introductions: No new members or guests, One upgrade: Clarence KD8MGT to General.

BREAK

DOOR PRIZE DRAWING: Paul W8PI, Rita WB8FBG, John N8RWI
50/50: Keith K8YKD donated winnings to Scholarship.

MINUTES: Motion by Paul W8PI, supported by Dale WA8EFK, to approve as written in the Herald. Approved.

TREASURER REPORT: Motion by Paul W8PI, supported by John N8RWI, to approve the treasurer's report as passed out to the membership. Approved.

HAMFEST: Fred reported that ALL the tables are reserved for the hamfest and that we will have a new food vendor as Cornerstone Baptist Church in Ida has bought the building that Trinity owned. We still need some people to help with ticket sales on Sunday morning.

DX REPORT: By Olimpio, lots of DX. 9N7AK Nepal until early July 2011, RI1FJ from Franz Josef Land till August, 9Q6CC Dem Rep of Congo till November, HG15IPA Hungary till Dec 31, RI1ANC Vostok Station, Antarctica till Dec 31, FO/F6JTL Marquesas Island 6/18 to 6/26, T88ZA Palau Islands 6/24- 6/27, FO/F6JTL Bora Bora Isl 6/30 to 7/3.

FUTURE PROGRAMS: Mike K8MLH, is looking for ideas for programs, and people to do them, please send him any of your ideas.

HERTZIAN HERALD: We still need some local input for the Herald and we will be entering The Michigan Section Newsletter contest next month.

CLASSES: Rita says several people are interested in taking Tech classes.

TESTING: Next session June 18th 9:00 am..

FOX HUNT: Next hunt July 23rd, 9:00 am at the Red Cross.

FIELD DAY: Set up begins at 9:00 am at Vienna Park shelters B and C, up front in the park. A Phone station, CW station, VHF station, and a GOTA station will be setup. Pot luck at 6:00 pm.

ARPSC: Olimpio announced that at the last meeting we met the new Monroe County EM - Mark Hammond. We are currently looking for a new EC RACES officer for Monroe County. Applicants should send resumes to Olimpio at wb8sez@yahoo.com.

RRRA: Dale announced the repeater site cleanup went well and they are working on an interface for the cell phone system to be used by the repeater.

OLD BUSINESS: Jeff KA8NCR, Mike N8KUF, Dale WA8EFK and Mike K8MLH are working on a multi-anniversary event to celebrate the MCRCA's 70th, the ARPSC's 50th, the RRRA's 40th, and the 25th anniv of RRRA league affiliation.

Rita has agreed to head up a group to help the Boy Scout's earn their Radio merit badges. On October 15, 2011 the Boy Scouts of America will be holding an event they call "Scouting 101 - A New Century". The Boy Scout Jamboree on the air (JOTA) is taking place that same weekend.

It was also suggested that we send out a pamphlet or newsletter to newly licensed hams and older non-members, in order to recruit more members to our club.

The Republic of South Sudan Now a DXCC Entity

From the ARRL Letter

At 10 AM (EDT) on Thursday, July 14, the UN General Assembly met to vote on whether or not to admit the Republic of South Sudan as its 193rd member state. The Republic of South Sudan was admitted by a vote of acclamation and is [now a member of the United Nations](#). Immediately following the General Assembly meeting, the flag of the Republic of South Sudan flew for the first time in front of the UN, ceremoniously marking its membership in the UN. The membership of the Republic of South Sudan in the United Nations invokes DXCC status under Section II, 1(a) of the [DXCC rules](#). As such, the new country is declared a DXCC entity and QSOs for this new entity will be accepted immediately, with a start date of July 14, 2011.

The newly created Republic of Sudan was recognized by the United Nations on July 14, making it the newest DXCC entity.

The flag of the Republic of South Sudan

According to DXCC Manager Bill Moore, NC1L, the Honor Roll numbers move from 340 to 341 for the Top of the Honor Roll, and for Honor Roll it becomes 332. "The deadline for the Honor Roll and annual listings is December 31, so you must submit the new entity to DXCC by then in order to retain your Honor Roll status," Moore explained. "For Logbook of The World ([LoTW](#)), you may submit all your QSOs with the Republic of South Sudan stations anytime. There is no need to hold them out of your log or do anything differently from what you already have been doing. You do not need to assign country names or identifiers. After we issue certificates to the Republic of South Sudan license holders, LoTW will make matches and assign the correct entities automatically." Click [here](#) for more on how the Republic of South Sudan became the newest DXCC entity.

The following article was copied from The ARES E-Letter for June 15, 2011. I encourage all MCRCA members to consider actively participating in both ARES® and RACES organizations to provide us the maximum flexibility in serving our supported organizations.

Mike, K8MLH

Q&A: ARES® Versus RACES

Q: I would enjoy reading an article about the similarities and differences between the ARES® groups and the RACES groups. I am part of an ARES® group, but I really don't know why ARRL has two organizations that seem to be doing the same thing. — Mike Sallee, KC9FWL, Bloomington, Illinois

A: After World War II, it became evident that the international situation was destined to be tense and the need for some civil-defense measures became apparent. Successive government agencies designated to head up such a program called on amateur representatives to participate.

In the discussions that followed, amateurs were interested in getting two points across: First, that Amateur Radio had a potential for and capability of playing a major role in this program; and second, that our participation should be in our own name, as an Amateur Radio Service, even if and after war should break out. These principles were included into the planning by the formulation of regulations creating a new branch of the amateur service, the Radio Amateur Civil Emergency Service, RACES.

RACES is administered by local, county and state emergency management agencies, and supported by FEMA. It is a part of the Amateur Radio Service that provides radio communications for civil-preparedness purposes only, during periods of local, regional or national civil emergencies. These emergencies are not limited to war-related activities, but can include natural disasters such as fires, floods and earthquakes.

RACES operation is authorized by emergency management officials only, and this operation is strictly limited to official civil-preparedness activity in the event of an emergency communications situation.

Operating Procedure

Amateurs operating in a local RACES organization must be officially enrolled in the local civil-preparedness agency having jurisdiction. RACES operation is conducted by amateurs using their own primary station licenses and by existing RACES stations.

The FCC no longer issues new RACES (WC prefix) station call signs. Operator privileges in RACES are dependent upon, and identical to, those for the class of license held in the Amateur Radio Service. All of the authorized frequencies and emissions allocated to the Amateur Radio Service are also available to RACES on a shared basis.

While RACES was originally based on potential use for wartime, it has evolved over the years, as has the meaning of civil defense (which is also called civil preparedness), to encompass all types of emergencies.

While operating in a RACES capacity, RACES stations and amateurs registered in the local RACES organization may not communicate with amateurs not operating in a RACES capacity. Such restrictions do not apply when such stations are operating in a non-RACES—such as ARES®—amateur capacity. Only civil-preparedness communications can be transmitted.

Test and drills are permitted only for a maximum of one hour per week. All test and drill messages must be clearly so identified. With the approval of the chief officer for emergency planning and applicable state, Commonwealth, district or territory, however, such tests and drills may be conducted for a period not to exceed 72 hours no more than twice in any calendar year. (cont'd next page)

ARES® and RACES

Although RACES and ARES® are separate entities, the ARRL advocates dual membership and cooperative efforts between both groups whenever possible for an ARES® group whose members are all enrolled in and certified by RACES to operate in an emergency with great flexibility. Using the same operators and the same frequencies, an ARES® group also enrolled as RACES can "switch hats" from ARES® to RACES and RACES to ARES® to meet the requirements of the situation as it develops. For example, during a "nondeclared emergency," ARES® can operate under ARES®, but when an emergency or disaster is officially declared by a state or federal authority, the operation can become RACES with no change in personnel or frequencies.

This situation is still not well understood and accepted throughout the United States; both ARES® and RACES still exist, separately, in many areas.

Where there is currently no RACES, it would be a simple matter for an ARES® group to enroll in that capacity, after a presentation to the civil-preparedness authorities. In cases where both ARES® and RACES exist, it is possible to join both or to be involved in either. As time progresses, the goal would be the merger into one strong organization, with coordination between ARES® and RACES officials using the same groups of amateurs. In some sections of the U.S. today, the ARES® structure has also been accepted as the RACES structure.

VOLUNTEER

As alluded to in my cover article, we need to reach out to our community to spread interest in amateur radio to expand the advancement of the radio art. We have several opportunities to so such available to us. I am looking for someone to head each of the following efforts:

1. I have been contacted by the Boy Scouts. On October 15, 2011 the Boy Scouts of America will be holding an event they call "Scouting 101 - A New Century". On that day the Cub Scouts will be working on their pins and belt loops, and the Boy Scouts (ages 10-18) will be working on their merit badges. The Boy Scout Jamboree on the air (JOTA) is taking place that same weekend. They are asking if the MCRCA would be interested in setting up radios downtown Monroe and instructing the Boy Scout age boys with the JOTA and possibly helping with their radio merit badge. **Rita WB8FBG has volunteered for this position – THANKS!!!**
2. New licensed operator recruitment. Part of our job as MCRCA members is recruiting new members. This could be either someone who is already a licensed ham operator or someone who is interested in becoming licensed. We have access to lists of people who are already licensed and live in Monroe County. We could contact them and offer them the opportunity to join. Folks interested in becoming licensed are a little more difficult and would rely more on word-of-mouth (the above Scouting effort could contribute to that population).

Anyone interested in heading up either of the above efforts, please let me or any of the other Board members know. These two activities tie together in that they have potential to add to our membership and spread the interest in amateur radio.

Mike, K8MLH

Monroe Hamfest Report

Another Hamfest has come and gone very quickly. Seems like it was just March and all of a sudden we jumped into June. Time really flew this year. I have to admit, the last couple of years, the hamfest has gone very smoothly.

We had a scary time wondering if we would have a food vendor this year. Trinity Lutheran put their building up for sale shortly before the hamfest and said they could not provide food service for our swap. I contacted several others but they were all scheduled already and couldn't help out. Then just two weeks before the swap Corner Stone Baptist Church in Ida decided to buy the building and said they would cook for our swap on Father's Day. They had a hard time getting the information about food supplies and amounts from Trinity, but I think they did a very good job for their first attempt at it. They agreed to return next year with some experience under their belt.

We had a lot of help this year, and things got done with less effort. The more help we get the easier it is on everyone. I would like to thank everyone that helped out this year, and I have lots of special thanks to pass out.

To all the ticket sellers who had to put up with impatient crabby trunk sales people while trying to keep gnats out of their faces, and then spend hours staring into the sun and getting sunburned, a very big THANK YOU for your hard work. This year's sellers were: Neil Remaklus KA8PQH, Bill Bryan WB8JAI, Wes Busdiecker KC8SKP, Mike Hall K8MLH, Brenda VanDaele KB8KQC, Shawn Breitner (Jeff's son), and Myself. This was Shawn's first time and he did very well at handling the unruly hams that just feel the need to complain when coming into the swap. Brenda has been in charge of ticket sales for many years and spent every year out there selling tickets. Bill Bryan also has been showing up without fail every year and spent 3 or 4 hours out there selling tickets. A special 'pat on the back' to them for their extra efforts.

A special 'pat on the back' to Rita WB8FBG who spends Saturday evening listening to smart a— vendors, then spends all night out there watching over everything, and then runs the Merchant building all day Sunday.

A big THANK YOU to the people that help unload and set-up the tables on Saturday morning and tear them down on Sunday afternoon. All though we used less tables these last few years, it's still a lot of hard work. These people were Terry KC8RQI, Bill WB8JAI, John N8RWI, Ray K8HEP, Scott KB8UNZ, and Kyle VanDaele. If I missed any I'm sorry but I had to rely on my steel trap memory...that's rusted shut.

Thanks go to Paul W8PI and Keith K8YKD, who cleared the club table and the Red Cross Com. Center of all the junque that had been cluttering up the place, and raised a large chunk of change in the process. Great job.

Thanks to Dale WA8EFK, Mike N8KUF, Jeff KA8NCR, Mike K8MLH, and crew who set up and run the PA system every year, and to Nick AF8CS for running the talk-in station. Thanks to the others that helped out at the hamfest, John N8RWI, Ted KD8HYT, and Jeff KA8NCR trunk sales guides; Terry KC8RQI, Worker's gate; Olimpio WB8SEZ security and club table.

Finally, a big round of applause to the 20 or so members out of the club, that put out the effort to help out every year with this hamfest. This hamfest is the big event of the year and provides a large portion of support for the club, and only about one third of the members help out each year. It's so nice to work with dependable people on such an important project, Thank you all very much.

Fred KA8EBI, Hamfest Chairman for 16 years.

Amateur Radio Examinations Monroe, MI

Monroe County Radio Communications Association Amateur Radio examinations are held the 3rd Saturday of every even numbered month at:

American Red Cross Chapter Bldg.
1645 North Dixie Highway
Monroe, MI 48161

Walk-ins are always welcome.

2011 Schedule:

February 19	April 16
June 18	August 20
October 15	December 17

TESTING BEGINS PROMPTLY AT 9:00 AM

Applicants are expected to have all forms filled out and be ready to take tests at that time. Coffee and doughnuts are available at 8:30 AM. For more information or to make reservations, call Paul Trouten - W8PI at 734-854-2224

Join us at the next meeting

July 21st at 7:30 pm
American Red Cross Chapter Bldg.
1645 North Dixie Highway
Monroe, MI 48162
